

**TOWN OF FLAMBEAU  
RUSK COUNTY  
WISCONSIN**

It is the policy of the Town of Flambeau that a permit must be obtained to construct or maintain a driveway or other property access point within the township right of way in accordance with Wisconsin State Statutes which govern the requirements of driveways and property access points.

Statute 86.05 provides that “Whenever it is necessary, in making any highway improvement to cut or fill or otherwise grade the highway in front of any entrance to abutting premises, a suitable entrance to the premises shall be constructed as a part of the improvements; and if the premises are divided by the highway, then one such entrance shall be constructed on each side of the highway. Thereafter each entrance shall be maintained by the owner of the premises. During the time the highway is under construction, the state, county, city, village or town shall not be responsible for any damage that may be sustained through the absence of an entrance to any such premises.”

Statute 86.07 (2) provides that “No person shall make any excavation or fill or install any culvert or make any other alteration in any highway or in any manner disturb any highway or bridge without a permit therefore from the highway authority maintaining the highway. Such permit shall contain the statement and be subject to the condition that the work shall be constructed subject to such rules and regulations as may be prescribed by said authority and performed and completed to its satisfaction.”

Please contact the Town of Flambeau Clerk for driveway access permits prior to constructing a new driveway or when revising an existing driveway.
